

TECHNICAL DATA SHEET

NATURAL LINALOOL

GENERAL PRODUCT DESCRIPTION

Linalool is distilled from natural Hosho oil.

Appearance	Clear, colorless to pale yellow liquid.
Odour	Flowery fresh odor, reminiscent of Lily of valley
CAS No.	78-70-6
FEMA:	2635
Molecular formula:	C ₁₀ H ₁₈ O

PRODUCT SPECIFICATIONS

Product specification	Typical Properties
Natural Linalool Content (GLC)	98.0% min
Camphor Content (GLC)	≤0.5%
Refractive Index (20°C)	0.8580 - 0.862
Relative Density (20°C/20°C)	1.4630 - 1.4660
Acid Value	≤1.0
Optical Rotation(200C)	-14°~ -18°

: -

APPLICATIONS

Linalool is one of the most frequently used fragrance and perfumery substance. It can be applied in soaps and detergents.

FORM OF SUPPLY

Net wt. 180KGS. Packing in gallons galvanized iron drums

STORAGE CONFITIONS:

Stored in a cool, dry place, in full, tightly sealed containers. Protected from light.
