

TECHNICAL DATA SHEET

TERPINEOL

GENERAL PRODUCT DESCRIPTION

Terpinol is a hydrolysate of gum turpentine.

Appearance	<i>Water White Clear Liquid or slightly yellow liquid</i>
CAS No.	<i>98-55-5</i>
Molecular Formula:	<i>C₁₀H₁₈O</i>
Molecular Weight:	<i>154.25</i>
Chemical Name:	<i>2-(4-Methyl-3-cyclohexenyl)-2-propanol</i>

PRODUCT SPECIFICATIONS

Product specification	Typical Properties
Appearance	Clear Liquid
Odour	Like the sweet smell of lilac
Specific Gravity Max r ₂₀ ⁴	0.9310 ~ 0.9350
Diopre N ₂₀ ^D	1.4825 ~ 1.4855
Boiling range(214~224°C)	96% MIN

APPLICATIONS

Mainly in low cost perfumes for household products, such as air fresheners, cleaners, disinfectant and polishes. Also in industrial reodorants.

FORM OF SUPPLY

*Net wt. 185KGS. Packing in gallons galvanized iron drums
In Bulk 20mt per isotank,*

STORAGE CONFITIONS:

Stored in Cool, dry and ventilated location. Protected from light and covered with nitrogen in container.

Shelf life: One year with proper storage.
